AUTHOR INDEX

ACKERMAN, H. A., fruit ice cream, 174
ABELE, C. A., improving milk supplies, 32; milk marketing, 178
ABRAMSON, H., dental caries, 60
AGNEW, R. C., vitamin D, 144
ALLDREDGE, E. E., cultured milk, 191
ALLEN, NAT. M., composition of milk, 45, 274
ALLEY, H. R., cream cheese, 1, 42
ALMY, E. F., cleansing and sterilizing solutions, 175
ANDERSON, A. E., growth of mould, 41
ANDERSON, E. O., acidity of milk, 243, 274; mastitis, 52, 277, 294; Streptococci in milk, 110
ANDERSON, H. L., determination of calcium, magnesium, and phosphorus in evaporated milk, 2
ANDERSON, L. C., cost of manufacturing ice cream, 166
ANDERSON, P. G., vitamin D, 144
ANSBACHER, S., foam producing substances in milk, 5; lactoflavin, 252, 254
ARNOLD, P. T. DIX, butterfact content of Jersey milk, 115
ARNOTT, W. S., paper milk containers, 189
ATKESON, F. W., curd tension, 50

BABEL, F. J., laboratory control of ice cream, 265
BAIER, W. E., citrus juice, 181
BAISSE, J., diacetyl, 153; electrical deacidification, 213; low temperature pasteurization, 8
BALDWIN, JR., F. B., freezing of milk and cream, 106, 243
BALLANTYNE, S. M., milk sales, 187
BARKER, C. R., satisfying the consumer, 157
BARNES, C. R., glass electrode, 21
BARNES, M. E., bacterial counts, 227
BARNICOAT, D. R., diacetyl in cold-stored butters, 98
BARTLETT, S., secretion and composition of milk, 117
BAUMANN, C. A., fat soluble vitamins, 7
BAYER, A. H., power and refrigeration, 129
BEAM, A. L., effect of mastitis upon milk production, 109
BEAMENSDERFER, J. S., refrigerants, 148
BEATTIE, C. P., Brucella abortus, 53
BECKER, R. B., butterfat content of Jersey milk, 115
BECKER, HENRY C., milk control, 29
BELLE, G., surface tension of milk, 212
BENDER, R. C., irradiated evaporated milk, 161; vitamin B, 63, 64
BENDIXEN, H. A., fluid milk industry in Europe, 26
BERNHEIM, A. R., calcium and nutrition, 37
BERRY, M. H., soft curd milk, 135, 201
BESPALOW, E. F., metallizing, 214
BETHKE, R. M., vitamin D milk, 65, 250
BEYTHIEN, A., fat and water of cheese, 70
BIGURIA, F., evaporated milk, 42
BILHAM, PHILIP, irradiation of fats, 239
BLOOD, J. W., chlorine of milk, 291
BOCHER, LELA E., vitamin G, 6
BOGDANOFF, V. M., Kuban fermented milk, 83
BOGEN, EMIL, Brucelliasis, 81
BOHSTEDT, G., nutritional qualities of milk, 61, 91
BOOTH, ROLAND, fatty acid metabolism, 228; seasonal variation in butterfat, 152
BORMAN, EARLE K., milk handlers, 78
BOSWORTH, A. W., butterfat composition, 1, 207
BOUROUNOFF, BORIS, Kefir milk, 26
BOWERS, C. S., bacteriological analysis of milk, 256
BOYER, A. J., bacteriology of Swiss cheese, 101
BRABEC, J., fat content of dry milk, 283
BRADFIELD, ALEC, bacteria counts, 198
BRANNON, J. M., yeasts in fruit juices, 137
BRANDT, P. M., cooling cream, 155
BRAY, J. L., boiler water, 147, 215
BREED, R. S., samples for bacterial counts, 278; standard agar, 82
BREUER, M. J., ice cream, 173
BRIGANDO, J., calcium phosphates of milk, 208
BRIGANDO, M., casein, 24
BRIGHAM, G. D., mastitis, 52
BRISON, J., bacteriological analysis of butter, 154

Brochu, E., Yoghourt, 197
Brock, R. L., cottage cheese, 41
Brooks, Paul B., mastitis, 254; milk laws, 30
Brown, A., antirachitic value, 62; irradiated evaporated milk, 240; irradiated milk, 248
Brown, W. Carson, oxidized flavor in milk, 106
Brown, W. E., certified milk, 61
Brown, W. R., lactose of milk, 205
Bruecker, A. L., Bang's disease, 275
Bryan, C. S., Streptococci and quality, 194; Streptococci mastitis, 226
Burgers, W. G., x-ray structure of butterfat, 69
Burke, A. D., chocolate ice cream, 169; cultured buttermilk, 8, 191; quality improvement, 230
Burkey, L. A., bacteriology of Swiss cheese, 159; curd tension and cheesemaking, 239
Burton, L. V., ultra-violet rays in dairies, 143
Butler, J. R., butterfat losses, 220
Buxton, J. Basil, immunization experiments, 94

Cameron, W. R., undulant fever, 12
Campbell, H. C., quality of milk, 276
Cannon, C. Y., machine milking, 44; time curds remain in abomasum of calves, 113
Cantley, Robert W., bacterial counts on milk, 195
Carithers, R. L., dry milk in ice cream, 285
Cary, C. A., lactose and longevity, 143
Caskey, Wayne, marketing costs, 219
Cate, Paul H., chocolate milk, 26
Caulfield, W. J., acidity of milk, 243; curd tension of milk, 25, 253; sterilization of milking machines, 108; vitamin C in milk, 253
Cavanaugh, G. W., dairy waste waters, 274
Chamberlin, Lewis C., dry ice, 19
Chambers, Leslie A., soft-curd by sonic vibration, 206
Charles, D. A., homogenized milk, 183
Cherrington, V. A., mastitis, 54
Chilson, W. H., off-flavors in market milk, 180; recontamination of pasteurized milk, 259
Chipman, S. S., vitamin D milk, 223
Christen, C., vegetable rennin, 158
Christen, M., acid formation, 226; flavor in butter, 218, 218, 218
Claitor, J. O., fancy brick orders, 230; peach ice cream, 174
Clarke, J. O., sanitary conditions in creameries, 101
Claveaux, E. M., hygiene of milk, 200
Clement, C. C., accidents occur, 170
Clifford, Winifred M., clotting of milk, 251
Clune, William, milk control, 244
Cole, A. P., curd character of milk, 136
Cole, W. C., fancy ice cream, 174; ice cream quality, 168
Coleman, Marion B., undulant fever, 86
Colwell, M. P., grading milk, 192
Combs, W. B., butterfat in frozen cream, 264; dry milk in ice cream, 285; sherbets, 286; testing frozen cream, 4
Conn, Lillian W., copper in milk, 22
Copp, Ralph, power plant operation, 269
Corbett, R. B., milk control, 183
Corbett, W. J., cream cheese, 123
Cordes, W. A., biological methods for dairy products, 109
Cordua, Olive B., nutrition program, 191
Courtney, Eleanor, lipase content of milk, 114
Cox, G. A., bacteriophage in lactic streptococci, 296
Cox, Rex W., consumption of dairy products, 119
Crabtree, James A., milk poisoning, 51
Craig, J. D., infant foods, 34
Craig, R. S., chocolate milk, 182
Credicott, E. W., cost of serving ice cream, 166
Crisman, D. W., quality of milk, 276
Curtis, L. R., acidophilus milk, 46; colon organisms in milk, 255
Cutler, Thomas D., standardization chart, 264

Dahlberg, A. C., cream flavors and viscosity, 5; straining milk, 77, 134
Dahle, C. D., cold room, 230; desired overrun, 171; flavor in ice cream, 230; freezing the mix, 172; fruit flavored mixes, 170; ice cream mix, 173; ices and sherbets, 170; improving flavor, 174; plastic

cream, 186; processing ice cream mix, 172; texture of ice cream, 171

DAMM, HELMUT, germ count in milk, 81
DAMROW, F. C., milk production, 44
DANIELS, A. L., calcium metabolism, 61
DANN, WILLIAM, fatty acid metabolism, 228; seasonal variation in butterfat, 152; vitamin A content of cow's colostrum, 93
DAVIDSON, L. T., vitamin D milk, 223
DAVIDSON, P. B., evaporated milk, 42
DAVIES, W. L., chlorine in milk, 251; metabolism of betaine and fishy flavors, 291; milk of shorthorn cows, 116; progress of dairy science, 290
DAVIS, H. J., vitamin G of dried skimmilk, 161
DAVIS, H. P., government control, 267; milk and metals, 27
DAVIS, J. G., reviews of dairy science, 111
DAVIS, RUSSEL J., milk quality, 289
DAY, C. D. MARSHALL, vitamins, 64
DELORME, J., casein, 163
DEMETER, K. J., bacteriological control of milk, 200; lactic acid bacteria in cheese, 262, 263; lactic acid streptococci, 80
DEPEW, H. F., continuous freezer, 126
DESANCTIS, A. G., infant foods, 34
DICE, J. R., milking room, 112
DIERNHOFER, KARL, agglutination test, 292
DIMOCK, W. W., Bang's disease, 84
DOAN, F. J., freezing of milk and cream, 106, 243; heat stability of soft-curd milk, 104
DODGE, WARREN M., lactose rations, 39
DORCAS, M. J., irradiated evaporated milk, 161; irradiated milk, 65, 66
DORNER, W., cheesemaking, 15
DOW, GEORGE W., milk and cream collection routes, 10, 11
DOWNS, P. A., biological methods for dairy products, 109; milk and metals, 27
DRAKE, T. G. H., antirachitic value, 62; irradiated evaporated milk, 240; irradiated milk, 248
DUCKWORTH, JOHN, milk fever, 245
DUGDALE, H. K., growing child and milk, 77
DUNCAN, C. W., magnesium studies in calves, 222
DURFEE, THOMAS, paper milk containers, 189
DURHAM, H. L., milk strainers, 77
DUSTMAN, R. B., oxidized flavor in milk, 106
DUTCHER, R. ADAMS, vitamin A, 64
DVORK, JAR., varieties of cheese, 284

EAST, B. R., vitamin D milk, 62
EASTER, E. C., refrigeration, 135
EASTON, A. K., bacterial sampling of milk, 197
ECKEL, KARL, quality of milk, 280
ECKLES, W. C., whipped cream, 9
EDDY, W. H., human milk, 47
EDISBURY, J. R., assays of vitamin A, 250
EDITORIAL, aluminum, 181; bacteria in air, 296; bovine tuberculosis, 53, 87; chocolate milk, 133, 133, 135; customer complaints, 188; food income, 248; freezing point of milk, 290; homogenized milk, 229, 267; ice cream freezer, 170; mastitis, 258; merchandising milk, 181; milk and public health, 86; milk as a source of vitamin C, 247; milk consumption, 289; milk designation, 242; milk houses, 267; milk in transit, 130; nutrition, 246; pasteurized versus raw milk, 57; pay for butterfat, 56; pediatrics, 247; prevention of dental caries, 59; reducing diets, 173; silent horse wagon, 135; special mold, 287; specific gravity and fat content, 289; undulant fever, 83
EGBERT, SENECA, household use of milk, 74
EGLINTON, R., recontamination of pasteurized milk, 259
EHRLICH, C., udder tuberculosis, 293
ELLINGTON, E. V., raising dairy calves, 163
ELLIS, N. R., goat milk, 249; lactose and longevity, 143
ELVEHJEM, C. A., in hemoglobin formation, 6; nutritional value of milks, 40; nutritive value of milk serum, 114
ENGEL, KARL, keeping quality of butter, 70
ENGELBRECHT, MILDRED A., Streptococcus in milk, 28
EPPLE, W. F., proteolytic enzymes, 93
EPSTEIN, ELY, cod liver oil in milk, 245
ERB, J. H., egg yolk, 235
ESPE, D. L., time curds remain in the abomasum of calves, 113
ETCHELLS, JOHN, L., acidophilus milk, 51
EVANS, F. R., bacteriology of Swiss cheese, 102; resazurin as indicator of sanitary conditions, 193
EVERSON, G., calcium metabolism, 61

FABIAN, F. W., health requirements, 295; ice cream sanitation, 126; Romano cheese, 157
FALES, H. L., infant foods, 34
FAY, A. C., analyzing ice cream, 167; detection of formaldehyde in milk, 109; microscopic examination of butter, 98; sterilization of milking machines, 108
FEE, KENNETH, milk price control, 26
FINNEGAN, W. J., citrus juice, 176
FISCHER, O., copper in cottage cheese, 262; hydrogen-ion concentration of milk, 87; preservatives in cheese, 71
FISHER, R. C., bacterial standard, 129
FLANIGAN, G. E., foam producing substances in milk, 5; irradiated evaporated milk, 161; lactoflavin, 252; vitamin B, 63, 64
FOLGER, A., milking machines, 49
FOUASSIER, MARC, fatty material in rennet casein, 163; infant mortality, 199
FOURNIER, A., cleanliness of milk, 190
FOUTS, E. L., keeping cream, 152; milk flavor, 73, 76; scoring milk, 271
FRANCE, R. L., aging ice cream mixes, 2
FRANK, LESLIE C., milk regulation and sanitation, 23, 31, 143
FRAZIER, W. C., bacteriology of Swiss cheese, 101, 102
FRAZIER, W. J., cream cheese, 123
FREY, C. N., vitamin D milk, 94, 146
FRIEDGEN, A. E., delivery costs, 219
FROST, W. D., Streptococci in milk, 28
FULMER, F. B., insulation, 230
